WORK EXPERIENCE

W2Solution Vietnam

Ho Chi Minh City, Vietnam

.NET Software Engineer

06/2023 - present

- Participated in implementing tasks of moderate to high complexity as requested by supervisors and clients using .NET Framework and .NET Core.
- Assisted new team members with tasks of low complexity or collaborated with team members on shared tasks.
- Managing and editing MSSQL databases.
- Integrating third-party APIs into company packages to fulfill tasks.
- Packages's version control using Azure DevOps (both TFVC and Git).

DSO Vietnam

Ho Chi Minh City, Vietnam

Software Engineer

03/2021 - 04/2022

- Developed interactive and user-friendly frontend interfaces using React.js and TypeScript.
- Designed and implemented robust APIs using C# to support frontend functionalities.
- Wrote automated testing by using Selenium with SpecFlow.
- Collaborate with other members to ensure seamless project delivery.

PERSONAL PROJECT

Simple book selling website

- Having basic CRUD actions and handling access permission. It is used for studying how the MVC, ASP.NET Scaffolding and Entity Framework work.
- Demo: <https://scarlet2.azurewebsites.net/>
- Source: [duy123a/scarlet \(github.com\)](https://github.com/duy123a/scarlet)

Simple posts blog website

- Making pagination, some loading animation, integrating APIs, validating data. It is used for studying React, Typescript with some UI libraries like MUI.
- Demo: [Moonside \(moonside-react.vercel.app\)](https://moonside-react.vercel.app/)
- Source: [duy123a/moonside-react \(github.com\)](https://github.com/duy123a/moonside-react)

EDUCATION

University of Science

Ho Chi Minh City, Vietnam

Bachelor in Information Technology

2022

- **GPA:** 3.2 / 4.0
- **Grade:** Distinction
