PROFESSIONAL SUMMARY

Results-driven **.NET Software Engineer** with over 4 years of hands-on experience in designing, developing, and maintaining scalable web applications and RESTful APIs using .NET Core, C#, and MSSQL. Experienced in optimizing database performance, integrating complex third-party APIs, and delivering high-quality software.

TECHNICAL SKILLS

Programming Languages: C#, TypeScript, JavaScript, SQL

Frameworks & Tech Stack: .NET Core, .NET Framework, ASP.NET MVC, Entity Framework Core

Databases: MSSQL, PostgreSQL

Web Services & APIs: RESTful APIs, Third-party API Integration, Modular Monolith

Testing & Tools: Selenium, SpecFlow, Automated Testing, Postman

Version Control & Methodologies: Git, TFVC, Agile/Scrum, Code Review, CI/CD pipelines

WORK EXPERIENCE

Deha Vietnam

01/2025 – Present

.NET Software Engineer | Ho Chi Minh City, Vietnam

- Architect and develop enterprise-level backend services and RESTful APIs using **.NET Core** and **C#**.
- Collaborate with cross-functional teams and clients to clarify software requirements, optimize system architecture, and deliver high-quality solutions on schedule.
- Design, refine, and optimize **MSSQL and PostgreSQL** databases to ensure high availability, data integrity, and fast performance.
- Participate in code reviews, enforce coding standards, and maintain code repositories using **Git**.

W2Solution Vietnam

06/2023 – 10/2024

.NET Software Engineer | Ho Chi Minh City, Vietnam

- Implemented core features and complex modules for e-commerce products using **.NET Framework** and **.NET Core**.
- Managed, designed, and optimized **MSSQL** databases, including writing efficient queries.
- Integrated third-party APIs and services into existing company packages to enhance platform functionality.
- Utilized **Git** and **TFVC** for version control, continuous integration, and project tracking.
- Mentored and onboarded junior team members on coding guidelines and best practices.

DSO Vietnam

03/2021 – 04/2022

Software Engineer | Ho Chi Minh City, Vietnam

- Built responsive and dynamic user interfaces using **React.js**, **TypeScript**, and modern UI libraries.
- Designed and exposed robust backend APIs using **C#** to power frontend feature integrations.
- Authored automated end-to-end (E2E) test scripts utilizing **Selenium** with **SpecFlow** (BDD) to ensure software stability and reduce manual testing effort.
- Worked in an Agile environment collaborating closely with QA, developers, and product owners.

EDUCATION

University of Science — Bachelor of Science in Information Technology

2018 – 2022

- **GPA:** 3.2 / 4.0 (Grade: Distinction)

LANGUAGES & CERTIFICATIONS

- **English:** Intermediate (TOEIC 750+)
